Our Philosophy.

At Jai Maa Kankali Sheeting Industries Pvt. Ltd., we are committed to delivering excellence and innovation.

We uphold strong ethical practices, conducting our activities with honesty and transparency. Timely project completion is a cornerstone of our success, ensuring that deadlines are met without compromising quality.

Our employees' well-being and professional growth are prioritized, creating a supportive and collaborative work environment.

By embracing change and seeking innovative solutions, we meet the evolving needs of our clients with cutting-edge technology and industry best practices.

Our client-centric approach focuses on personalized solutions that exceed expectations, fostering long-term relationships built on trust and satisfaction.

By adhering to these principles, we aim to build a legacy of trust, excellence, and innovation in the industrial sector.

Services Offered.

Fabrication & Erection:-

Piping: Expertise in gas, hydraulic, water, and air piping systems to meet various industrial requirements.

Structural Steel and Heavy Equipment: Fabrication and erection of structural steel frameworks and installation of heavy industrial equipment.

Custom Steel Structures: Design and construction of tailored steel structures for specific client needs.

Manpower Supply:-

Skilled Professionals: Supply of engineers, supervisors, welders, fitters, and other skilled professionals.

Tailored Teams: Formation of specialized teams for operation, maintenance, and shutdown projects to ensure efficiency and quality.

Installation & Commissioning

Industrial Machinery: Installation and commissioning of pumps, valves, boilers, heat exchangers, and other industrial machinery.

Testing and Training: Comprehensive testing of installed equipment, alignment services, and training for client personnel.

Shutdown Services:-

Maintenance Planning: Detailed planning and scheduling of shutdowns to minimize downtime and ensure thorough maintenance.

Rapid Execution: Efficient execution of plant maintenance and shutdown projects to restore operations quickly.

Coating & Wrapping

Corrosion/Abrasion Protection: Application of protective coatings and wrappings for pipelines up to 12" diameter to prevent corrosion and abrasion.

Each of these services is designed to meet the diverse needs of industrial clients, ensuring high standards of quality, efficiency, and safety

Companies We Have Worked With.

1. Essar Construction Ltd.

Essar Construction Ltd. is a leading construction and engineering company with a global presence. We have partnered with them on various projects, providing our expertise in fabrication, erection, and commissioning services. Our collaboration with Essar Construction has been instrumental in delivering high-quality industrial infrastructure and equipment installations.

2. Man Industries Ltd.

Man Industries Ltd. is a major player in the manufacturing and supply of large diameter carbon steel pipes. Our association with Man Industries involves providing technical manpower, installation, and maintenance services. We have worked on several projects, ensuring that their industrial needs are met with precision and efficiency.

3. Reliance Industries Ltd.

Reliance Industries Ltd. is one of India's largest conglomerates with diverse business interests, including petrochemicals, refining, oil, telecommunications, and retail. We have contributed to their industrial projects by offering comprehensive fabrication, erection, and commissioning services. Our team has successfully completed numerous assignments, showcasing our commitment to quality and reliability.

4. Moira Steel.

Moira Steel is a renowned name in the steel manufacturing industry. We have provided them with extensive fabrication and maintenance services, including piping and structural works. Our collaboration has enabled Moira Steel to maintain high standards of operational efficiency and safety.

5. Jaideep Ispat & Alloys Pvt. Ltd.

Jaideep Ispat & Alloys Pvt. Ltd. is a key player in the steel and alloys industry. Our work with Jaideep Steel includes quality assurance and quality control (QA/QC), coating services, and manpower supply. We have played a vital role in their production processes, ensuring seamless operations and adherence to stringent quality standards.

6. Utkarsh Steel.

Utkarsh Steel is a prominent steel manufacturer known for its innovative products and solutions. We have assisted Utkarsh Steel with dust collector and ducting works, contributing to their efforts in maintaining a clean and efficient production environment.

7. VRKP Ispat.

VRKP Ispat is an established name in the iron and steel industry. Our partnership with VRKP Ispat includes mechanical maintenance and erection services. We have consistently delivered high-quality work, helping them achieve their operational goals.

8. Qualitech.

Qualitech is a leading provider of engineering solutions and services. We have been involved in their operations and maintenance projects, ensuring smooth and efficient functioning of their industrial facilities. Our technical expertise has been a key factor in the successful completion of their projects.

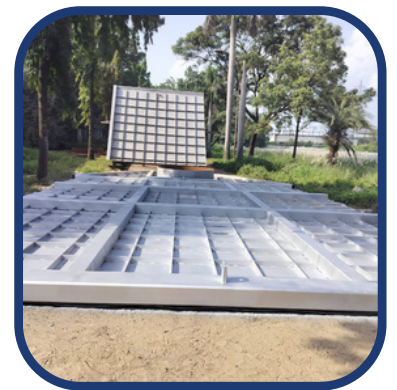

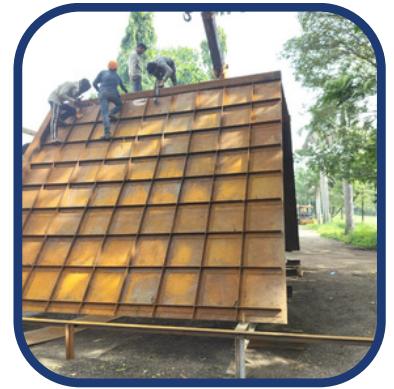

9. L&T (Larsen & Toubro).

Larsen & Toubro (L&T) is a leading Indian multinational conglomerate specializing in engineering, construction, manufacturing, and technology. Founded in 1938, it operates across 30+ countries, serving industries like infrastructure, power, and defense. Renowned for innovation and quality, L&T delivers world-class solutions for complex projects. With over 300,000 employees, it emphasizes sustainability and customer-centricity globally.

10. Nilkanth Steel Ltd.

Nilkanth Concast Private Limited, established in 2003, is a leading steel manufacturer based in Ahmedabad, Gujarat. It specializes in producing sponge iron, TMT bars, steel billets, and structural products. Known for quality and reliability, it serves diverse industrial and infrastructure needs. The company plays a key role in India's iron and steel sector.
